

Science in the Schoolyard

Teaching the FOSS and STC Kits Outdoors
An Introductory Workshop

Saturday
May 16
&
May 30

8-3:30 pm

**Gardner Pilot
Academy
30 Athol St
Allston**

One in-service credit

*Use the schoolyard to deepen students' science understanding...
Motivate and excite students about science... Improve students'
observational and hands-on science skills.*

Participants will receive *Science in the Schoolyard*© Guides to the BPS FOSS and STC kits. These Guides provide step by step assistance on taking the BPS science investigations outdoors. Between sessions participants will be required to take students outdoors for one or more classes, and report on their experience.

Learn from BPS teachers:

- how to structure a successful outdoor science lesson
- tips and tricks for outdoor classroom management
- how to identify and enhance the science teaching resources in your schoolyard
- how outdoor teaching impacts student learning

Attention will be paid to the needs of all learners including SpEd and ELLs.
